

How Commercial Clubs of Southern Idaho Boost State

BY C. E. ARNEY.

Special to The Tribune.
POCATELLO, Idaho, Oct. 17.—The League of Southern Idaho Commercial Clubs will meet in this city tomorrow. This will be the fifth annual meeting of this Southern Idaho League.

C. M. HILL.
Of Twin Falls, president Southern Idaho League of Commercial Clubs.

ing, and some live discussions of subjects relating to the development of the southern portion of the state are looked for.

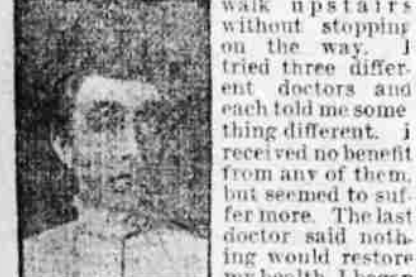

So far as known, this league is operating on a plan, exclusively within itself. It is an entirely original idea. That it has weathered the storms of criticism for five years, attests to its being placed among the substantial class of organizations, calculated to augur for the public good.

This league organization undertakes to foster the lesser organizations of the different towns of southern Idaho. The basis of cooperation, from the league standpoint, is the payment into the treasury of the league, a sum equal to 25 cents per capita of the membership of the local club. For instance, Boise's commercial club is the largest organization, auxiliary to this league of clubs, and it pays monthly to this parent organization about \$70 which indicates that its membership is about 280. The expenditure of this money is directed by the executive board of the league of clubs consisting of President C. M. Hill of Twin Falls, E. M. Heigbo of Weiser, E. R. Greenwood of American Falls, E. R. Hickey of Nampa, D. W. Church of Pocatello, P. V. Lewis of Roseberry and C. R. Shaw and W. N. Northrup of Boise. This committee meets in Boise every two months and of the committee of eight busy business men in their respective communities, five is the smallest number.

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her.

Willimantic, Conn.—"For five years I suffered untold agony from female troubles, causing backache, irregularity, dizziness and nervous prostration. It was impossible for me to walk upstairs without stopping on the way. I tried three different doctors and each told me something different. I received no benefit from any of them, but seemed to suffer more. The last doctor said nothing would restore my health. I began taking Lydia E. Pinkham's Vegetable Compound to see what it would do, and I am restored to my natural health."—Mrs. ETTA DONOVAN, Box 209, Willimantic, Conn.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

No More Coal Troubles

No more unnecessary tinkering; no more trouble to get your coal to burn—if you use Citizens Coal. It is clean and slackless, gives more heat, lasts longer and therefore costs less. And we deliver promptly.—Phone 49.

CITIZENS COAL CO.,
153 MAIN STREET.

A SQUARE-DEAL

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and these are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless—even to the most delicate women and children.

Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or other organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures even the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

To find out more about the above mentioned diseases and all about the body in health and disease, get the Common Sense Medical Adviser—the People's Schoolmaster in Medicine—revised and up-to-date book of 1000 pages—which treats of diseased conditions and the practical, successful treatment thereof. Cloth-bound sent post-paid on receipt of 31 cents in one-cent stamps to pay cost of mailing only. Address Dr. R. V. Pierce, Buffalo, N. Y.

American Party Has Done a Great Work

Editor Tribune:

I came to Salt Lake City recently to make it my home, and during my short stay I have tried to size up the situation. I find a beautifully laid out city, wide streets, beautiful shade trees with wide spreading branches and sequestered among these cool, inviting shades, I notice substantially built cottages, ornamentation and comfort being considered in their construction. I notice some palatial homes, also church edifices, school buildings and business blocks that would be a credit to cities with greater wealth and population. You have a city hall and county court house, both of which are credit to both city and county. But you have no state capitol!

Why is this? A state added to the union in 1896, with the vast resources that Utah has, not having a state capitol, naturally causes the tourist to ask the cause. During the past four or five years the city has doubled in population, business in general has increased, and real estate has increased in value, and in account of these marked improvements capital is coming to the city to be invested. What is the cause of this marked improvement?

To one who has studied the situation from a conservative viewpoint, it looks as if the American party has done a great deal in bringing about this rapid progress. I have before me a copy of the Daily Tribune dated October 9, 1909, containing an article by the progressive element of Salt Lake City to lay aside partisanship and vote for the American party ticket. I have before me a copy of the Salt Lake City Herald-Republican dated October 9, 1909, containing an article by the conservative element of Salt Lake City to lay aside partisanship and vote for the American party ticket.

Salt Lake City is the gem, the pearl long crystallizing at the foot of the Wasatch mountains. It is the Tribune says, man's dream is trying to retard the city's progress, then it is the duty of the liberal element that follows the Tribune to assist the progressive element to make Salt Lake City a great, big growing city. Moss-backs will not do it. I have lived in the west during the past twenty-three years and have always written a conservative view of each city that I have lived in, and I must admit to say that I believe Salt Lake City's future greatness is assured, but it is necessary that the city pursue a progressive policy, then it would be well to vote the American party ticket.

The tirade against Mayor Bransford in the Herald-Republican this morning comes in very bad taste, mudslinging is not a very genteel way of electorizing and is only resorted to when the other party fears defeat. The supposedly thousands of the Herald-Republican would

It means economy—
It means entire satisfaction
To have DUVALL do the work.

1910 WALL PAPERS

Next year's stock is in—and it is from these new styles and colorings that selections will be made for next spring's work.

Don't wait until then, when everybody will be clamoring—when the best men are divided on different important jobs. No rush at this time—better figures—a big saving—for work is wanted now. And, having it executed now, you will enjoy it during the long winter—and then, next spring, only house cleaning.

Let Duvall plan your decorations.

Let perfect taste—the result of experience—govern your papering, your interior decorations—even if it be only one room

His testimonials are homes throughout the city.
The working force includes skilled workmen.
